Statement of Intent

Hope Sentamu Learning Trust (HSLT) is committed to providing emergency first aid provision to deal with accidents and incidents affecting staff, pupils and visitors.

Academies/schools will take every reasonable precaution to ensure the safety and wellbeing of all staff, pupils and visitors.

Under Health and Safety legislation employees have to ensure that there is adequate and appropriate equipment and facilities for providing first aid in the workplace.

This policy aims to:

- Ensure that academies/schools have adequate, safe and effective first aid provision for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor.
- Ensure that staff, trustees and governors are aware of their responsibilities with regards to health and safety.
- Ensure that staff and pupils are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at schools when express permission has been granted for this.
- Ensure that all medicines are appropriately stored.
- Promote effective infection control.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the school/academy site/s.

1. Legal Framework

- 1.1. This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:
- Health and Safety at Work etc. Act 1974
 - The Health and Safety (First Aid) Regulations 1981
 - The Management of Health and Safety at Work Regulations 1999
 - The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
 - The Education (Independent School Standards) Regulations 2014
 - DfE (2015) 'Supporting pupils at school with medical conditions'
 - DfE (2000) 'Guidance on first aid for schools'
 - DfE (2019) 'Automated external defibrillators (AEDs)'
 - DfE (2021) 'Statutory framework for the early years foundation stage'
 - DfE (2022) 'First aid in schools, early years and further education'
- 1.2. The policy is implemented in conjunction with the following **Trust** policies:
- Health and Safety Policy & Procedures Manual
 - Supporting Pupils with Medical Conditions and Administering Medication Policy
 - Behaviour Policy
 - Safeguarding and Child Protection Policy
 - Educational Visits Policy

2. Roles and Responsibilities

- 2.1. **The Trust's Responsibilities**
- The Trust is responsible for ensuring that this policy and the related procedures are implemented effectively.
 - Ensure that insurance arrangements provide full cover for any potential claims arising from actions of staff acting within their scope of their employment.
 - Ensure that responsibilities for Health and Safety, including the provision and management of first aid is effectively assigned, accepted and managed at all levels. This duty is delegated to others within the Trust.
- 2.2. The **Principal/Headteacher** has ultimate responsibility for the health and safety matters at each school/academy and is responsible for:
- The implementation of this policy and its related procedures.
 - Ensuring that all staff and parents are made aware of the Trust policy and arrangements regarding first aid.
 - Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency.

- Ensuring that all risk assessments are completed and appropriate measures are put in place.
- Ensuring that there is a sufficient number of appointed first aiders within the school/academy.
- Ensuring that appropriate and sufficient first aid training is provided for staff and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carry out first aid duties.
- Ensuring that adequate space is available for catering to the medical needs of pupils.
- Reporting specified incidents to the Trust Operations Manager (TOM) who will manage the reporting of applicable incidents to the Health and Safety Executive in collaboration with the school/academy.

2.3. **All Staff** are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury.
- Endeavouring at all times to secure the welfare of the students/pupils at school/academy.
- Making students/pupils aware of the procedures to follow in the event of illness, accident or injury.
- Informing the Principal/Headteacher or their Line Manager of any specific health conditions or first aid needs.

2.4. **First Aiders** are responsible for:

- Administering immediate first aid to pupils, staff or visitors.
- Completing and renewing training as per guidance.
- Ensuring that they are comfortable and confident in administering first aid.
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures.
- Ensuring first aid provision/supplies are appropriate for the environment and, where applicable in date.

2.4.1. **[EYFS Schools only]** In schools with Early Years Foundation Stage provision, at least 1 person who has a current paediatric certificate must be on the premises at all times.

2.4.2. The Principal/Headteacher must ensure there are a sufficient number of suitably trained first aiders to care for pupils and staff in case they are injured at school/work. However, the minimum legal requirement is to have an 'appointed person' to take charge of first aid arrangements. The school/academy will ensure that the appointed persons are trained appropriately.

2.5. The **appointed person** is responsible for:

- Overseeing the school/academy's first-aid arrangements.
- Taking charge when someone is injured or becomes ill.
- Calling the emergency services where necessary.
- Looking after the first-aid equipment, e.g. restocking the first aid container/s.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- Partaking in emergency first aid training, first aid at work and refresher training where appropriate, to ensure they have knowledge of:
 - What to do in an emergency
 - First aid for an unconscious person
 - First aid for someone who is having a seizure
 - Maintaining injury and illness records as required
 - Paediatric first aid (where relevant)
- Maintaining injury and illness records as required.
- Inspection of Automated External Defibrillator (AED) annually.

3. First Aid Provision

- 3.1. Each school/academy will review its first aid needs (at least annually), and particularly after any changes, to ensure the provision is adequate. Where minimum numbers of trained first aiders are set, these should be monitored to ensure that these standards are being met.
- 3.2. When considering how many first aid personnel are required, the Principal/Headteacher should consider the following:
 - Adequate provision for lunchtime and breaks. It is good practice to encourage lunchtime supervisors to have first-aid training.
 - Adequate provision for leave and in case of absences.
 - Adequate provision for off-site activities, i.e school trips.
 - Adequate provision for practical departments, such as Science, Design Technology and PE.
- 3.3. The school/academy will have suitably stocked first aid boxes in line with the assessment of needs. A typical first aid kit will include the following:
 - A leaflet giving general advice on first aid
 - 20 individually wrapped sterile adhesive dressings, of assorted sizes
 - 2 sterile eye pads
 - 4 individually wrapped triangular bandages, preferably sterile
 - 6 safety pins
 - 6 medium-sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
 - 2 large-sized (approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings

- 3 pairs of disposable gloves
 - Scissors
- 3.4. Specialist provision may be required for practical departments, i.e. eye wash, etc.
 - 3.5. The appointed person will routinely examine the contents of first aid boxes, including any mobile first aid boxes for offsite use - these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.
 - 3.6. First aid notices will be clearly displayed throughout the school/academy with information on the names and locations of first aiders to ensure that pupils and staff know who they must contact in the event of illness or injury.
 - 3.7. First aid containers will be clearly identified by a white cross on a green background.
 - 3.8. Please refer to [Appendix 1](#) for the locations of where First Aid boxes are stored within the school/academy.

4. First Aiders

- 4.1. The main duties of first aiders will be to administer immediate first aid to pupils, staff or visitors and to ensure that an ambulance or other professional medical assistance is called for when necessary.
- 4.2. Each school/academy will ensure that all first aiders hold a valid certificate of competence, issued by an HSE-approved organisation. First Aid at Work certificates are valid for **three years**.
- 4.3. Each school/academy will be mindful that many standard first aid at work training courses do not include resuscitation procedures for children, and will consequently ensure that appropriate training is secured for first-aid personnel where this has not already been obtained.
- 4.4. Each school/academy will ensure that refresher training and retesting of competence is arranged for first aiders before certificates expire.
- 4.5. Please refer to [Appendix 1](#) for a complete list of current first aiders at the school/academy and where they are based on site.
- 4.6. Each school/academy will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the school.
- 4.7. In line with government guidance, in Early Years Foundation stage provision, and taking into account staff: child ratios, the school/academy will ensure that there is at least **one** member of staff with a current and full Paediatric First Aid (PFA) certificate on the premises

and available at all times when pupils are present, and accompanying pupils on any and all outings taken.

- 4.8. All staff members will be made aware that agreeing to become a first aider for the school/academy is strictly on a voluntary basis and that they should never feel pressured to take on this role.
- 4.9. When selecting first aiders, the school/academy will follow the criteria laid out in government guidance, considering the individual's:
 - Reliability and communication skills.
 - Aptitude and ability to absorb new knowledge and learn new skills.
 - Ability to cope with stressful and physically demanding emergency procedures.
 - Normal duties - a first aider must be able to leave to go immediately to an emergency.

5. Automated External Defibrillators (AEDs)

- 5.1. Where a school/academy has procured an AED its location will be clearly signposted and communicated to all staff. It is advised that these devices should not be locked away, as it is important that these devices can be accessed quickly.
- 5.2. Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device.
- 5.3. **Primary schools only.** Where possible, AEDs will be used in paediatric mode or with paediatric pads for pupils under the age of eight.
- 5.4. A general awareness briefing session, to promote the use of AEDs, will be provided to staff on an annual basis. It is recommended that all First Aiders undertake AED training to build up confidence when using.
- 5.5. Maintenance checks are undertaken weekly by the site management team who will maintain an up-to-date record of all checks and maintenance work.

6. In-School Procedures

- 6.1. If an incident, illness or injury occurs, the member of staff in charge will assess the situation and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment.
- 6.2. If the first aider does not consider that they can adequately deal with the situation presented, they will call for further assistance from a colleague. They will remain on scene until help arrives.

- 6.3. Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, or the individual(s) has become seriously unwell, the appointed person will call 999 immediately.
- 6.4. Where necessary, a trained staff member will administer emergency help and first aid to the injured person.
- 6.5. Where the injured or unwell individual(s) is a pupil, the following process will be followed:
- The appointed person calls 999 immediately and follows the instructions of the operator - this may include the administering of emergency first aid by the trained first aider.
 - Where an ambulance is required, a staff member accompanies the pupil in the ambulance and the appointed person calls the pupil's parent/carer as soon as possible to inform them of the course of action taken. The staff member remains with the pupil at the hospital until a parent/carer arrives.
- 6.6. Responding staff members will see to any pupils who may have witnessed the incident and who may be worried, despite not being directly involved.
- 6.7. Once the above action has been taken, details of the incident will be reported promptly to:
- The Principal/Headteacher
 - The parents/carers of the pupil(s)
 - The Trust Operations Manager

7. Reporting Accidents and Record Keeping

- 7.1. In the event of incident or injury to a pupil, a parent/carer will be informed as soon as practicable.
- 7.2. Parents/carers will be informed of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.
- 7.3. In the event of a serious injury or an incident requiring emergency medical treatment, the **Principal/Headteacher** will inform the CEO/COO immediately and then telephone the pupil's parent/carer.
- 7.4. A list of emergency contacts will be kept at the school/academy office.
- 7.5. The school/academy will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given via their own recording procedures - this will include:
- The date, time and place of the incident.
 - The name and class of the injured or ill person.
 - Details of the injury or illness and what first aid was given.

- What happened to the person immediately afterwards, e.g. whether they were sent home or went back to class.
- Name and signature of the first aider or person dealing with the incident.

7.6. The Principal/Headteacher will ensure that any reportable injury, incident or accident under Reporting of Incidents, Diseases and Dangerous Occurrences (RIDDOR) will be reported to the TOM in a detailed and timely manner. The TOM will lead and manage the reporting of applicable incidents to the Health and Safety Executive (HSE) or Local Authority (LA).

7.7. An example of the incidents that sometimes result from schools' activities and are reportable under RIDDOR:

7.7.1. Injuries and Ill Health Involving Employees

7.7.1.1. Work-related accidents, including those caused by physical violence, if an employee is injured, wherever they are working: accidents which result in death or a specified injury must be reported without delay; accidents which prevent the injured person from continuing their normal work for more than seven days (not counting the day of the accident, but including weekends and other rest days) must be reported within 15 days of the accident.

7.7.1.2. Reportable specified injuries. These include:

- Fractures, other than to fingers, thumbs and toes
- Amputations
- Any injury likely to lead to permanent loss of sight or reduction in sight
- Any crush injury to the head or torso causing damage to the brain or internal organs
- Serious burns (including scalding), which cover more than 10% of the body
- Serious burns (including scalding), which cause significant damage to the eyes, respiratory system or other vital organs
- Any scalping requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia
- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness
- Any other injury arising from working in an enclosed space which requires resuscitation or admittance to hospital

7.7.2. Injuries Involving Pupils and Other People Not At Work

7.7.2.1. Injuries to pupils and visitors who are involved in an accident at school or on an activity organised by the school are only reportable under RIDDOR if the accident results in:

- The death of a person arising from, or in connection with a work activity; OR

- An injury that arose out of or in connection with a work activity and the person is taken directly from the scene of the accident to hospital for treatment (examinations and diagnostic tests do not constitute treatment).

7.7.3. Dangerous Occurrences

7.7.3.1. Reportable dangerous occurrences in schools typically include:

- The collapse or failure of load-bearing parts of lifts and lifting equipment
- The accidental release of a biological agent likely to cause severe human illness
- The accidental release or escape of any substance that may cause a serious injury or damage to health
- An electrical short circuit or overload causing a fire or explosion.

The above are examples only and this is not an exhaustive list. Further guidance can be obtained by visiting the HSE website (<https://www.hse.gov.uk/pubns/edis1.pdf>).

8. Offsite Visits and Events

- 8.1. Before undertaking any offsite visits or events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.
- 8.2. Transport Regulations require that all minibuses have on-board a first aid container.

9. Storage of Medication

- 9.1. Medicines will be stored securely and appropriately in accordance with individual product instructions. At the end of the academic year, any unused medication will be returned to the parent/carer.
- 9.2. Prescription medicines will be stored in the original container in which they were dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.
- 9.3. A limited amount of non-prescription medicines (provided by the parent/carer), including pain relief and antihistamines (such as ibuprofen, paracetamol, cetirizine (excluding use in EYFS) and Loratadine) will be stored by the school/academy. If medication for pain or allergies is required, authorisation will be sought from the parent/carer before this is administered to a pupil. Any medication administered must be recorded under the normal procedures.

- 9.4. Any non-prescription medication will be reviewed regularly to ensure the medication is within the appropriate use by date. Any medication which is close to the expiry date will be disposed of appropriately.
- 9.5. An emergency supply of medication will be available for pupils with medical conditions that require regular medication or potentially lifesaving equipment, e.g. an EpiPen.
- 9.6. Parents/Carers will advise the school/academy when a child has a chronic medical condition or severe allergy so that an Individual Healthcare Plan (IHP) can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis. A disclaimer will be signed by the parents in this regard.

10. Illnesses and Allergies

- 10.1. When a pupil becomes ill during the school day, the parents/carers will be contacted and asked to pick their child up as soon as possible.
- 10.2. A quiet area will be set aside for withdrawal and for pupils to rest while they wait for their parents to pick them up. Pupils will be monitored during this time.
- 10.3. Where a pupil has an allergy, this will be addressed via their IHP and in conjunction with the Trust's Allergen and Anaphylaxis Policy.

11. Consent

- 11.1. Parents/Carers will be asked to complete and sign a medical consent form when their child is admitted to the school/academy, which includes emergency numbers, alongside details of allergies and chronic conditions - these forms will be updated at the start of each school year.

12. Confidentiality

- 12.1. The Principal/Headteacher and staff should always treat medical information confidentially. It should be agreed with the parent/carer who else should have access to records and other information about a young person.

13. Monitoring and Review

- 13.1. This policy will be reviewed annually by the Trust and any changes communicated to all academies/schools.

- 13.2. Staff will be required to familiarise themselves with this policy. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.
- 13.3. The next scheduled review date for this policy is detailed on the cover page.

First Aid POLICY	
Localised School Based Procedures	
School Name:	Barlby High School
Headteacher/Principal:	Mrs A Gardner
Implementation Date: <i>Inline with policy approval</i>	July 2023

Introduction

In conjunction with the Trust wide First Aid Policy, localised procedures have been established to ensure that systems and procedures reflect the school/academy setting.

The localised procedures for the school/academy setting focuses on the following key areas:-

- First Aid Boxes
- Trained First Aiders

Should you have any concerns or questions relating to the localised procedures, in the first instance, please contact hello@bhs.hslt.academy

Locations of First Aid Boxes	
Relates to item 3.6 within the Trust First Aid Policy	
Reception	Mrs K Tomlinson
Sports Hall	Mr N Dale
Minibus	Mr W Carrington

Below is a list of all staff members who have responsibility for delivering First Aid:

First Aid Trained Staff		
Relates to item 4.5 within the Trust First Aid Policy		
Name of Staff Member	Location (i.e. classroom/office)	Date First Aid Training Completed
Mrs K Bramhill	Library	30/09/23
Mrs E Bramley	SEN	20/10/23
Mr W Carrington	Admin	24/11/24
Mr N Dale	Sport	05/10/23
Mrs S Denham	Sport	16/06/25
Mrs K Gooding	Admin	20/09/25
Mrs D Parkill	SEN	20/09/25
Mrs K Rafton	Sport	17/09/23
Mrs K Tomlinson	Admin	30/09/23
Mrs J Wright	Admin	03/01/24
Mrs A King	Admin	19/04/25

Please be aware that the above have been trained to administer emergency first aid, they are not medically trained and will not be expected to make any form of diagnosis.
